DOE ORDER #

5400.1

Mr. Steven H. Gunderson

RFCA Coordinator

Colorado Department of Public Health and Environment

4300 Cherry Creek Drive South

Denver, CO 80222-1530

Dear Mr. Gunderson:

In accordance with the Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) for Component Removal, Size Reduction and Decontamination Activities, this letter and its enclosures is notification for RSOP implementation. This notification is for all activities required to bring Building 891 to the unrestricted release criteria with the exception of RCRA unit closure. This will involve component removal, size reduction and decontamination activities utilizing the methods specified in the RSOP. Additionally, a closure description like document is included to address the RSOP requirement for a closure plan that meets the substantive elements of a Closure description document.

Kaiser-Hill or a subcontractor will conduct this work. If Kaiser-Hill or the subcontractor would like to use a method or process not included in the RSOP, then they are required to notify and, in consultation with the U. S. Department of Energy (DOE) and the Lead Regulatory Agency (LRA), the RFCA process for decision document modification will be used.

The appropriate checklists and information required by the RSOP are enclosed in this letter and should provide the necessary information. This work will be conducted in accordance with the work control documentation prepared by Kaiser-Hill or the subcontractor. The exact methods and process selected by Kaiser-Hill or the subcontractor and progress of the activities will be communicated to DOE/LRA through
